LOCAL NOTES.

Silver is quoted at 65 1/2.

Justice Koska has opened a justice of the peace office adjoining the Penz saloon.

H. C. Stillman came in last evening from Mexico and will spend a short time visiting in his old home.

Burt Cogswell the Chiricahua cattle man is in town. He reports everybody happy and stock looking fine in his section.

You can procure chicken tamales at the ladies' fair tomorrow night for 10 cents a piece or 3 for 25 cents. Coffee 5 cents.

Meers, Campbell, Waters, Wallace, O'Hare and Griffith are over from Bisbee and were passengers on the incoming coach today.

A sucker is not born every minute in Tombstone, still enough of the gullible make their appearance to justify the use of the old expression.

The case against Martin O'Hare of Bisbee, which was transferred here from the copper camp, is set for 10 a. m. tomorrow in Justice Alvord's court. A number of witnesses arrived today on the stage and are on hand.

Mr. Chas. R. Woreas, the Tucson smelter man is in town on business. Mr. Woreas is always ready to purchase a good quality of ore, and this is a chance for our chloriders to dispose of what they have ready for shipment.

The "suspension of assessment" law applied only to the calendar years '93 and '94, and non-performance of the assessment work for '95 and '96 leaves such unpatented mining locations subject to relocation January 1st, '97.

BOWIE KILLING.

A Report of the Shooting By Taylor.

Further particulars of the killing of J. D. Smith at Ft. Bowie is difficult to obtain. Zack Taylor, who is in jail charged with the crime, refuses to throw any light on the affair. A report from Bowie today states that Taylor had threatened Smith's life because of some trivial remark, and on the night of the killing entered Smith's house and deliberately fired two shots at his victim. Smith stepped forward and grappled with Taylor, when the latter succeeded in emptying his revolver at Smith killing him instantly. Taylor's examination will be had on the 15th when full particulars will be had.

BUCKLIN'S ARNICA SALVE.

It is guaranteed to give perfect satisfaction or money refunded. Price 50 cents per box. For sale at Tombstone Drug Store.

Every Woman Needs Dr. Miller's Pain Killer.

AFTER THE PEGLEG

Phenician Who Knows Where the Treasure Lies.

John Slankard, deputy U. S. Marshal for Maricopa county, will leave in a few days for Yuma with a prospecting outfit, says the Herald. His mission is nothing less than a search for the famous Pegleg mine, unsuccessfully sought for twenty years. Slankard is confident he knows the true location and, for the first time in twenty years, is in a position to test his knowledge. In 1897 he was a guide across the desert from San Diego to Yuma so he is familiar with every trail and water hole. He is sure that the Pegleg, with its wealth of gold bearing quartz, is located near the Mexican line and, undeterred by the fate of those who have perished of thirst in the hunt, will soon be on the field. Slankard has information held by him for years and declares he is not going blindly into the quest.

Free Pills.

Send your address to H. E. Bucklin & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of constipation and sick headache. For malaria and liver troubles, they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by Tombstone and Bisbee druggists.

In the case before Justice Koska today he jury could not agree on a verdict and the jurors were dismissed the case continued until the 14th. The charge is using profane language and was made a misdemeanor case.

C. G. Billicke, one of the first settlers of Tombstone, and who built and ran the Cosmopolitan hotel on Allen street, which was burned down in the fire of 1882, died in Los Angeles on the 7th inst. He was 54 years of age and was one of owners of the Hollenbeck hotel at Los Angeles, which he left he was running at the time of his death.

Frederick Stock, the Los Angeles capitalist and mining man, who has been here on business for the past few days, returned to his home yesterday, but will come again the last of this for the first of next week accompanied by his partner, and this second visit may mean much to the material interests of Cochise county.

At Schieffelin Hall Thursday evening December 10th, an entertainment and fair will be given by the ladies of the Epworth League. The entertainment will consist of Mother Goose Melodies, Tableau, Wand Drill and Mrs. Jarley's Waxworks. At the fair there will be a Gypsy Booth, Art Booth, China Booth, Kitchen Booth, Tamale Booth, Coffee Booth and Fish Pond. Doors open at 7 o'clock; curtain rises promptly at 7.30. The general admission to the entertainment will be 25 cents; children under 12 years, 10 cents.

CATTLE OUTLOOK.

What an Authority Thinks of the Market.

Authorities seem to agree that the supply of good fat cattle will not be heavy during the next six weeks or two months. A cattle exchange says it is thought that the number of cattle on feed that can be finished within this period is not great. There should be a letup, also in the marketing of half-fat cattle as it is now easier to obtain money to carry them to a finish. So far as the supply is concerned, then the immediate outlook for cattle appears to be good; but the supply has not been a reliable guide during the past few years. A good many people who figured on good markets, because cattle were not plentiful have been disappointed. The domestic and foreign demand has varied so much during the past few years as to make the consumption of beef a much more uncertain factor than the production. With cheap mutton and pork money scarce among a majority of consumers it will be hard to get high prices for beef even if the supply is less than in years when prices were higher.

NEW TIME CARD.

The N. M. & A. to Run a Through Passenger.

On November 13th a new time card will go into effect upon the N. M. & A. Through, fast passenger train will be put on, making the trip from Benson to Guaymas in sixteen hours. Leaving Benson in the morning at five o'clock in close connection with the Southern Pacific train from the west it will reach Nogales at nine o'clock, making the trip to Guaymas in the length of time stated, reaching the Sonora metropolis about nine o'clock at night. In the other direction it will leave Guaymas about seven o'clock in the morning, and reach Benson at 11:15 p. m. making close connections with Southern Pacific train going west. Pullman sleeping cars will run through between Guaymas and Benson.

FOR OVER FIFTY YEARS.

An old, well-tried remedy, Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup; and take no other kind.

The applicants for teachers certificates all passed a very credible examination yesterday. Mr. M. K. Sipe, the teacher at Benson, was awarded 1st grade and the Misses Guernsey, Padfield, Tuttle, Pike and Mrs. White were given second grade certificates.

H. C. Herrick came in today from Dos Cabezas, and reports that camp as holding its own; everybody cheerful and development work in the mines going bravely on. Mr. H. says his section is coming to the front, sure, and that before long bullion will be going into the world's market from the "two heads."

The Southern Pacific company has published gorgeously bound lithographs illustrative of the Sunset limited service. The central design is three young women, very lightly clad, seated on the cowcatcher of an express engine and crossing the continent at lightning speed. The amount of chrome yellow in various tints encompassing the figures, is enough to make a genuine sunset go and hide itself for envy.

Harry Miller, an old time resident and well known in Tombstone, passed away last evening at 5 o'clock. He had lived in this city for about fifteen years, the greater part of the being employed the different restaurants as waiter; he was member of the Tombstone Fire Department, holding his membership in Engine Co. No. 1, was well liked for kind and accommodating disposition and pleasant manners. He has been ailing for some time from a complication of diseases; about two weeks ago was confined to his bed and has not been able to leave it since. His father, who lives in St. Louis, has been notified of the death of his son. He leaves a wife to mourn his loss. The funeral took place at 3 o'clock this afternoon, from his late residence, corner of Fifth and Bruce streets.

ARIZONA COPPER.

Its Growing Field of Usefulness Becoming Apparent.

The mining industry of Arizona is in a healthy condition and until such time as the world will need our silver at a remunerative price, our gold and copper mines will yield a wealth of metal to enrich the producers and give profitable employment.

Copper is constantly finding employment in new avenues of manufacture. A recent writer on the "present status of electricity," says that among the various branches of manufacture it is exceptional to find one where electricity is not used in some way. The capital invested in electric lighting in the United States alone is computed at over \$500,000,000. The electrical apparatus used in mining is estimated at \$100,000,000, and the value of the electrical elevator industry will not fall short of \$15,000,000. The most important of all the electrical industries however is that of electric railways in which there is said to be invested over \$700,000,000, and this field is by no means developed. The telegraph is one of the oldest and important fields for the employment of copper and its demand to replace steel wire is constantly growing.

Truly there is no branch of the mining industry with a brighter future or offering a more profitable field for the investment of capital than copper.

The Mining Industry in speaking of Pine Creek camp, Colo., says: Work is progressing favorably on the Ingram property on Arizona Hill, and the main shaft is now over 50 feet deep, and showing up a 2 1/2 foot crevice of copper ore in the bottom. Some very big assays have lately been had by Ingram Bros., who shipped 2 tons of ore last week to the Black Hawk sampling works, for which they received a check for \$100.

A band of brigands attacked a ranch near San Juan de Los Lagos, Arizona, and killed Mariano Padilla the proprietor. The latter made a desperate resistance and killed four of the bandits, their dead bodies being found near the scene of the conflict. A vigorous search is being made by the authorities for the remainder of the band.

An ordinary man can say everything that any occasion calls for with a vocabulary of 1,000 words. Of those he only uses 400 or 500, using the remainder when an idea out of the usual line of thought occurs to him. Most of us being only ordinary men, seldom draw upon the surplus of 500 words.—Ex

That story of a Caribou potato raiser who refused 48 cents a barrel for eleven barrels of potatoes, declaring that he would have \$5 or nothing for the load, is matched by a yet that comes from Phenix of a man who recently went after a calf that he had pastured all summer and asked what he owed for the pasturing. "Well," said the farmer, "I've got a bill of \$7 against you, but I will take the calf and call it settled, providing you are willing." "No, sir," was the answer, "I will not do that, but I will tell you what I will do. You keep the calf two weeks longer and you can have her."

SHERIFF'S SALE.

PUBLIC NOTICE IS HEREBY GIVEN, that under and by virtue of a special execution issued out of the District Court, of the First Judicial District, of the Territory of Arizona, in and for the County of Cochise, on the 24th day of November, 1896, on a judgment thereon rendered on the 20th day of November, 1895, in favor of Paul H. W. Hester, plaintiff, and against H. C. Harwood and Daniel Huddy, copartners under the firm name of "Haweswood & Huddy," defendants, for the sum of two thousand and forty seven and 45/100 dollars, and one hundred and seventy-five 45/100 dollars costs of suit, and accruing costs, by which I am commanded to sell all those certain lots, pieces and parcels of real estate, situated in the town of Pearce, county and territory aforesaid, and described as follows, to-wit:

Two lots in said town of Pearce, known as the Hester and Hester and Hester and Hester, and bounded on the north by the property of Henry Fitch.

I will sell at public sale to the highest and best bidder for cash, currency of the United States, on the

16TH DAY OF DECEMBER, 1896.

at 1 o'clock p. m. of that day, all the right, title and interest which the said Haweswood and Huddy had in and to the said above described real estate, on the 31 day of October, 1896, the day the attachment in said case was levied thereon.
